# About Us.

## Introduction

PT Kanaya Logistik Indonesia, has focus on providing transportation service, especially in freight forwarding and cargo handling. Offering reliable and efficient logistics solutions. This company is primarily incorporated in the Kanaya Group since 2024 on Jakarta city.

This company started and founded on August 2024, as a new but ambitious partner in the logistics industry, we aim to build a reputation for precision, accountability, and timely execution. Whether handling complex cargo movements or managing end-to-end shipping logistics, our team ensures that every project is managed with professionalism and consistency.

At PT. Kanaya Logistik Indonesia, we don't just move cargo, we move trust, performance, and progress. Our goal is to become a trusted logistics partner that delivers results, foster long-term relationship, and contributes to the success of every supply chain we support.

# Mission & Vision.

## MISSION

- To provide innovative logistics solutions that ensure fast, reliable, and cost-effective services.
- To enhance customer satisfaction by offering personalized and flexible solutions tailored to their specific needs.
- To continuously improve our service offerings and expand our capabilities in the logistics and supply chain management industry.

## VISION

To be the most trusted logistics partner, providing world-class solutions that drive global trade efficiency, enhance supply chain operations, and add value to businesses worldwide.

# Our Core Values.

At PT Kanaya Logistik Indonesia, our core values are represented through “KANAYA” a reflection of who we are and what we stand for. These values influence how we make decisions, how we work together, and how we stay committed to delivering reliable logistics solutions with integrity and purpose.

K

# Policy Statements.

PT Kanaya Logistik Indonesia is committed to operating its logistics and transportation services with a strong focus on health, safety, and environmental responsibility.

The company is dedicated to:

**1**

Prioritizing the health and safety of all employees, partners, and stakeholders in every operational activity.

**2**

Complying with national laws and regulations, while aligning with recognized principles of occupational health and safety management.

**3**

Identifying, evaluating, and minimizing workplace risks to prevent accidents, injuries, and environmental harm.

**4**

Ensuring safe and healthy working conditions through adequate training, equipment, and preventive systems.

**5**

Following client-specific procedures and standards to ensure alignment with operational expectations and contractual obligations.

**6**

Encouraging the active participation of all personnel and partners in maintaining a safe and environmentally responsible workplace.

# Quality Assurance.

PT Kanaya Logistik Indonesia is committed to maintaining and improving service quality by applying a Quality Assurance (QA) system that works hand-in-hand with other management functions. This system helps ensure that every work process follows established standards and can be supported by clear documentation.

The Quality Assurance system is designed to be practical and effective across all levels of activity, starting from planning and execution to monitoring. It helps the company identify potential issues early and provides a mechanism for quick and appropriate corrective actions when needed.

Our Quality Assurance practices cover areas such as design, procurement, project supervision, and construction management for industrial facilities. These practices are outlined in our Quality Manual, which defines the roles and responsibilities of each department and includes relevant procedures, work instructions, testing plans, and checklist.

Company management fully supports the implementation of this system, and all employees are required to comply with the guidelines. Adherence to these quality standards is an essential part of our work culture and daily operations.

In addition to general procedures, PT. Kanaya Logistik Indonesia develops project-specific quality measures based on tender evaluations. These tailored procedures are designed to meet particular client requirements and are included in the Project Quality Plan and supporting documents.

# OUR PROJECT PORTFOLIO

PT KANAYA LOGISTIK INDONESIA

# Port to Port Services.

## PROJECT SHIP MENTOF SILICAFLUX FROM BELITUNG PORT TO BENETE PORT

This project was carried out for PT. Kemindo CAO Resources, involving the sea transport of silica flux from Belitung Port to Benete Port. PT Kanaya Logistik Indonesia handled cargo coordination, vessel arrangement, and documentation to ensure a safe and timely deliver

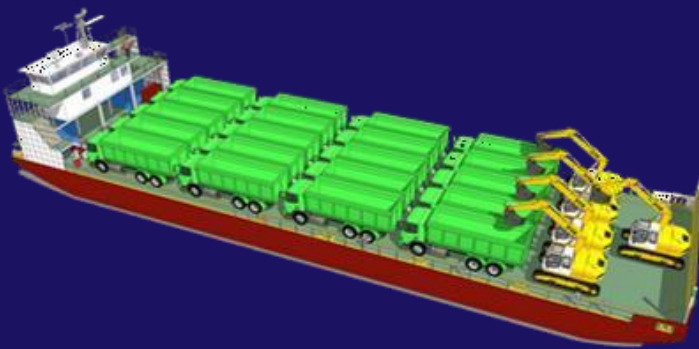

# Port to Port Services.
